

# Download Apa 6th Edition Formatting Headings

Download and use this template for Bow Valley College assignments that require APA formatting. It includes title page, header (running head), and reference list with hanging indent. After consulting with publication specialists at the APA, OWL staff learned that the APA 6th edition, first printing sample papers have incorrect examples of running heads on pages after the title page. APA has a number of rules that your instructor may want you to follow. The following information came from the 6th edition of the APA Manual. See the page number that follows each style rule for more information. Question: How do I cite an article which is cited in the article I am using? Answer: According to page 178 of the APA Manual, 6th edition, citation of a work discussed in a secondary source (e.g., for a study by Seidenberg and McClelland cited in Coltheart et al.) should be used sparingly.
