

# **Download Soul Made Flesh The Discovery Of Brain And How It Changed World Carl Zimmer**

"Carl Zimmer's illuminating book charts a fascinating chapter in the soul's journey."-- The New York Times Book Review "Describes a kind of second Copernican revolution -- one inside the body. Portraits of the Mind follows the fascinating history of our exploration of the brain through images, from medieval sketches and 19th-century drawings by the founder of modern neuroscience to images produced using state-of-the-art techniques, allowing us to see the fantastic networks in the brain as never before. Hier sollte eine Beschreibung angezeigt werden, diese Seite lässt dies jedoch nicht zu. Book reviews and excerpts about brain anatomy, neurobiology of human behavior, innate behavior, OCD neurocircuitry, effects of stress, attachment theory, family systems theory, ethology, and epigenetics.
