

# Download Vocalics Definition

DEFINITION A process whereby people, through the intentional or unintentional manipulation of normative actions and expectations, express experiences, feelings, andThere are lots of differences between verbal and nonverbal communication, the major ones are presented here in tabular form and in points. The first difference between the two is that in verbal communication the interchange of message is very fast which leads to rapid feedback. In opposition to this, the non-verbal communication is based more ...Chronemics is the study of the role of time in communication. It is one of several subcategories of the study of nonverbal communication. Other prominent subcategories include haptics (touch), kinesics (body movement), vocalics (paralanguage), and proxemics (the use of space).What is the difference between Verbal and Nonverbal Communication? Verbal Communication uses words. In Nonverbal Communication wordless cues are used.
